

## Waste Management Infrastructure and Financing

Country: CZECH REPUBLIC

Reporting Year: 2013

### National Infrastructure

Nuclear Energy Context:	
Research & Development:	
Policies and Programs:	
Decommissioning and Dismantling:	
Legal Framework:	<p>The Act No. 18/1997 Coll., as amended (the Atomic Act), set forth the conditions for peaceful utilization of nuclear energy and ionizing radiation, including activities subject to license from SUJB. Other provisions of the Atomic Act define:</p> <ul style="list-style-type: none"> <li>• conditions for a license issue,</li> <li>• probity and professional competence of the applicant for a license,</li> <li>• content and particulars of a license application,</li> <li>• SUJB conduct in the administrative proceedings,</li> <li>• license requisites,</li> <li>• alteration, cancellation and cessation of a license.</li> </ul> <p>The Czech Government and State Authorities in general are responsible for development and implementation of the legislative framework and the state policy in the field of radioactive waste management which should be in compliance with the international commitments. The State Office for Nuclear Safety is responsible for nuclear safety and radiation protection supervision and for development of legal regulations in the field of nuclear energy use and radioactive waste management. Gives permits for siting, construction, operation and closure of the repositories as well as for RW management in general. The Atomic Act, together with the Act No. 552/1991 Coll., on state supervision, provide SUJB with sufficient powers to execute the state supervision, as well as coercion means to enforce the compliance with legal requirements for nuclear safety and radiation protection. SUJB performs supervision of compliance with the Atomic Act and other regulations issued.</p>
