Comment **# 171: Waste Classification Scheme**

The waste classification scheme defined in Cuban National Regulation (Regulation for the Safe Management of Radioactive Waste, Res 35/2003) is similar to the IAEA Def matrix. But there is not high level waste in Cuba.

Definition of «unprocessed waste» and «processed waste»:

This country uses the IAEA standard definition:

	as-generated waste	processed for handling	processed for storage	processed for disposal
Unprocessed means:	x			
Processed means:		x	x	x
