

## Waste Classification Schemes

Country: PHILIPPINES

Reporting Year: 2008

Waste Class Matrix: **IAEA Def.**

This country does use the IAEA Scheme: Yes

Description: The Agency's standard matrix

Waste Class Name	Distribution %			
	VLLW	LLW	ILW	HLW
VLLW	100.0	0.0	0.0	0.0
LLW	0.0	100.0	0.0	0.0
ILW	0.0	0.0	100.0	0.0
HLW	0.0	0.0	0.0	100.0

Comment **# 142: waste matrix status**  
currently under government approval to adopt IAEA classification

Comment **# 25375:**

The proposed House Bill on Comprehensive and Radioactive Waste adopts the old IAEA Waste Classification. But for purposes of reporting to NEWMDB I can use the the new IAEA Waste Classification.

**Definition of «unprocessed waste» and «processed waste»:**

This country uses the IAEA standard definition:

	as-generated waste	processed for handling	processed for storage	processed for disposal
Inprocessed means:	x			
Processed means:		x	x	x
